

In March of 2007, I was diagnosed with a rare type of Cancer for the second time in my life. We had been in several churches over the years, but at this particular time, we were as far away from God and Church as you can get. My sister had been going to the Waters Church for awhile and told me about one of the pastors there who had cancer previously, and was healed. We went to The Waters, where I was taken by their sound teaching, the music and the presence of God. I was prayed for, anointed with oil and have received their loving care through 2 1/2 years of health issues. I am now 8 month post surgery and completely disease free. PRAISE GOD!

The Waters has become HOME to us because it is a place to know God's love through His people. If you are looking for the same kind of church... come worship with us at The Waters.
